## The fundamental underwriting principle of the Bank explained

Dec-25

- A. The Bank specializes in **cash flow** assessment through bank statement, GST, bureau EMI etc.
- B. In addition, Bank takes debit instruction for debiting EMI to customer bank account.

Combination of **A+B** put together practically works as an escrow.

In MFI business, we do not have debit instructions for EMI; Collections are done physically on due dates.

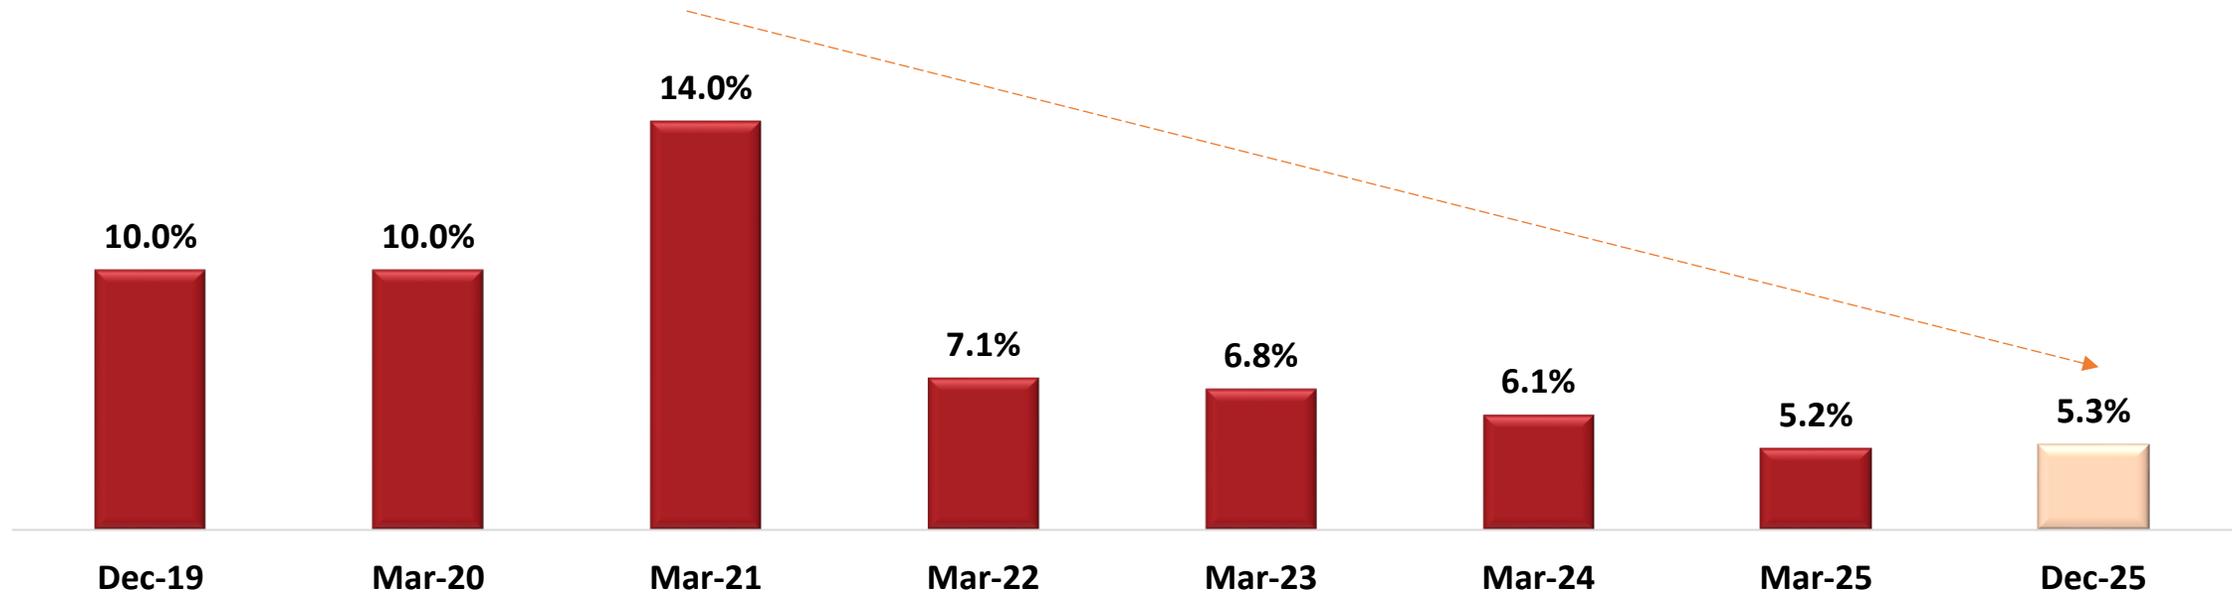

The bank follows a **stringent, 10-step underwriting process**, depending upon product to product, that meticulously evaluates potential borrowers by performing initial "no-go" criteria checks, comprehensive fraud detection, physical field verifications, financial ratio analysis, title deed verification, detailed cash flow analysis, personal discussions to confirm credentials and purpose of funds, and final assessments using credit scorecards and extensive credit bureau checks.

## First EMI returns for insufficient funds stable

Dec-25

First EMI returns for insufficient funds has reduced by **47%** indicating quality of underwriting has improved consistently

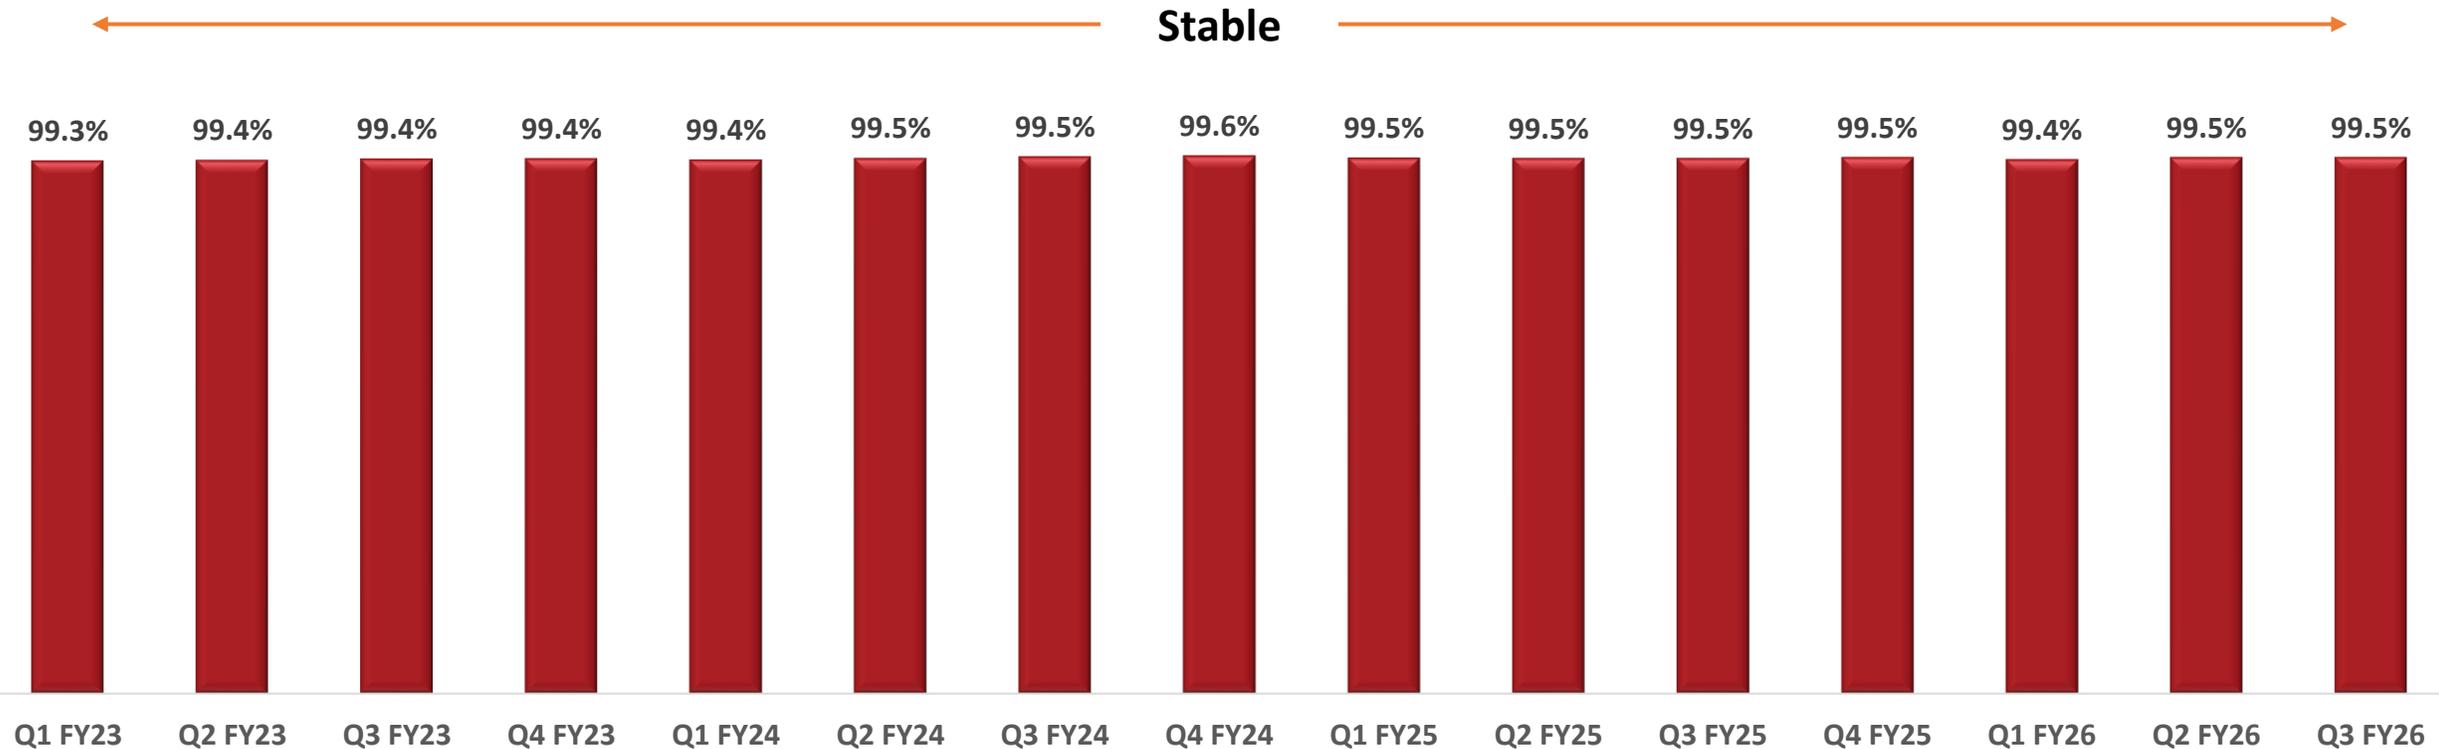

- First EMI (FEMI) represents EMI cheque returns in the FIRST month after Booking. It is thus a direct indicator of the Quality of Booking.
- First EMI Bounce Rate for insufficient funds stood at 4.7% as of Dec-25.
- Percentage are on a 12-months trailing basis, as a sustainable performance indicator.

*(EMI returns pertain to Month 1 EMI presentation for Month 0 Booking); the above figures are for Urban Retail Portfolio*

## The Bank collection efficiency stable at 99.5% (Excluding micro-finance)

Dec-25

Collection Efficiency % = (Pos of EMI Collected for the Month)/(Pos of EMI Due for the month) %  
Collections % do not include any arrear or prepayment collections and hence represents true collections efficiency.

- Numbers above pertain to collection efficiency in current bucket in Retail portfolio (excluding rural financing) which is the majority of the Book.
- Except the microfinance portfolio, the collection efficiency is stable for the other rural products

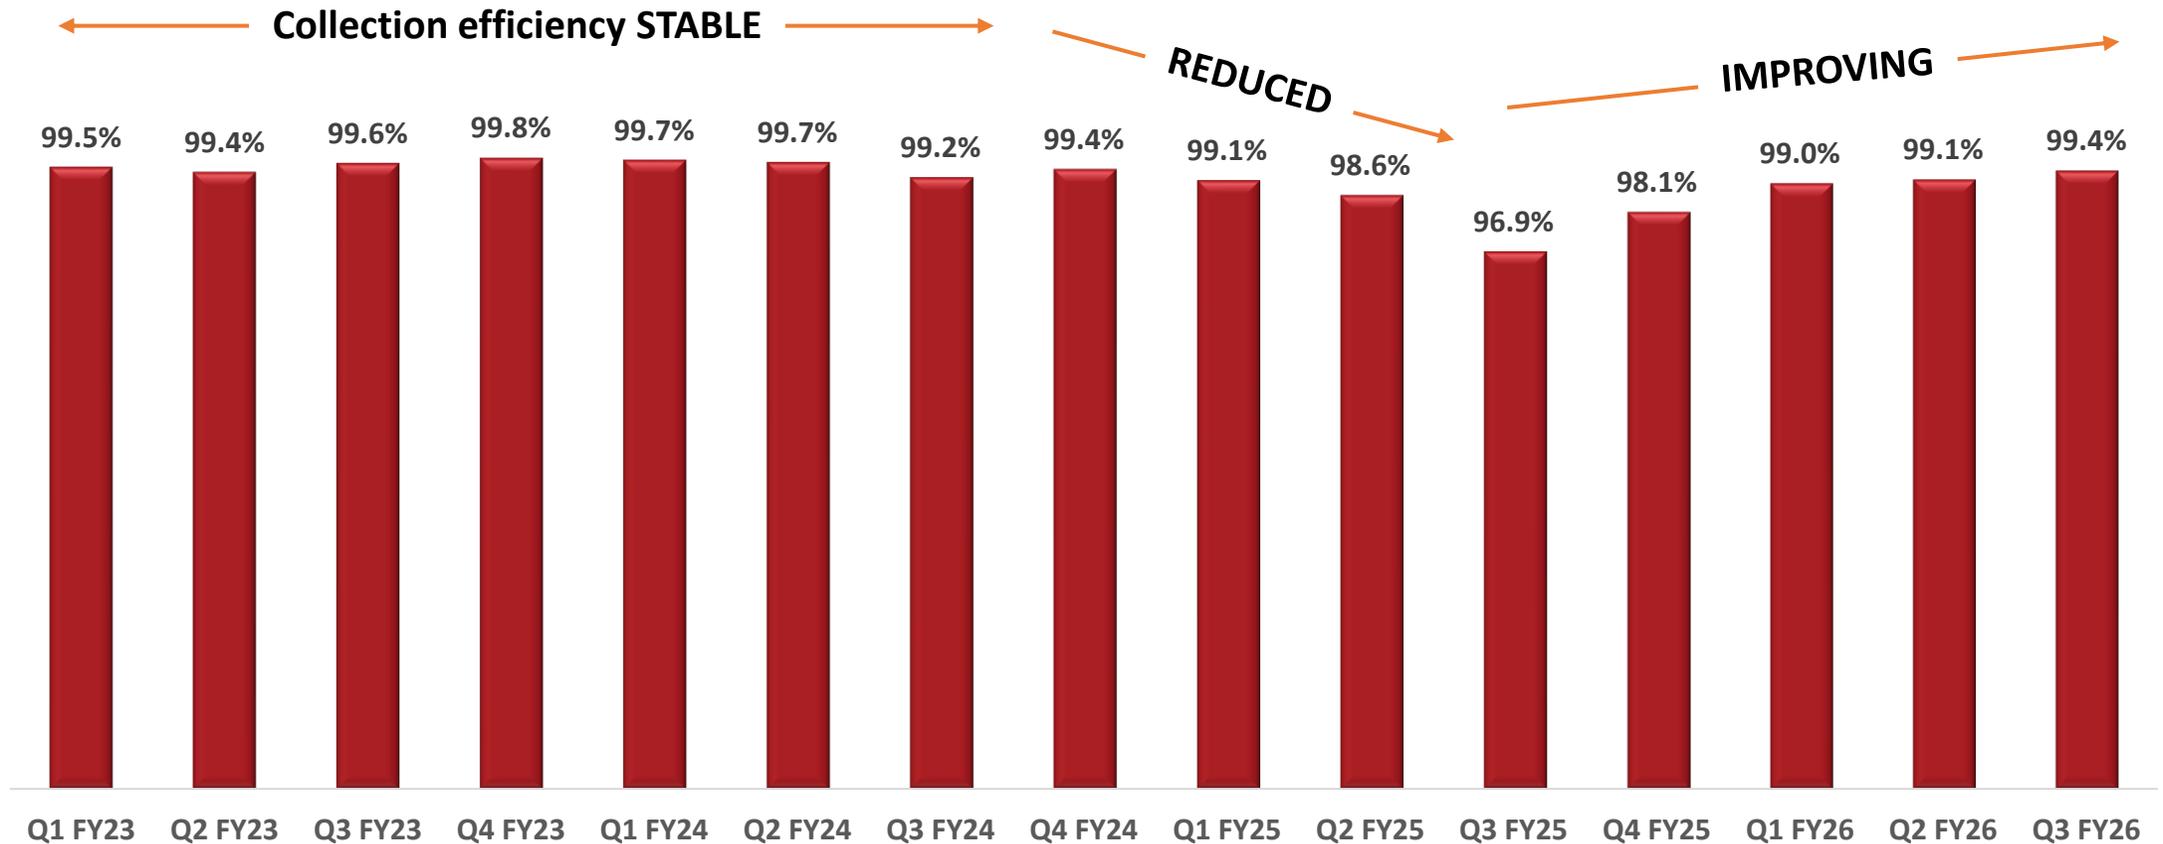

Note: The above figures are quarterly average of monthly collection efficiency.

## Collection Efficiency in MFI business reaching close to Pre-crisis levels

Dec-25

Collection Efficiency % = (Pos of EMI Collected for the Month)/(Pos of EMI Due for the month) %

Collections % do not include any arrear or prepayment collections and hence represents true collections efficiency.

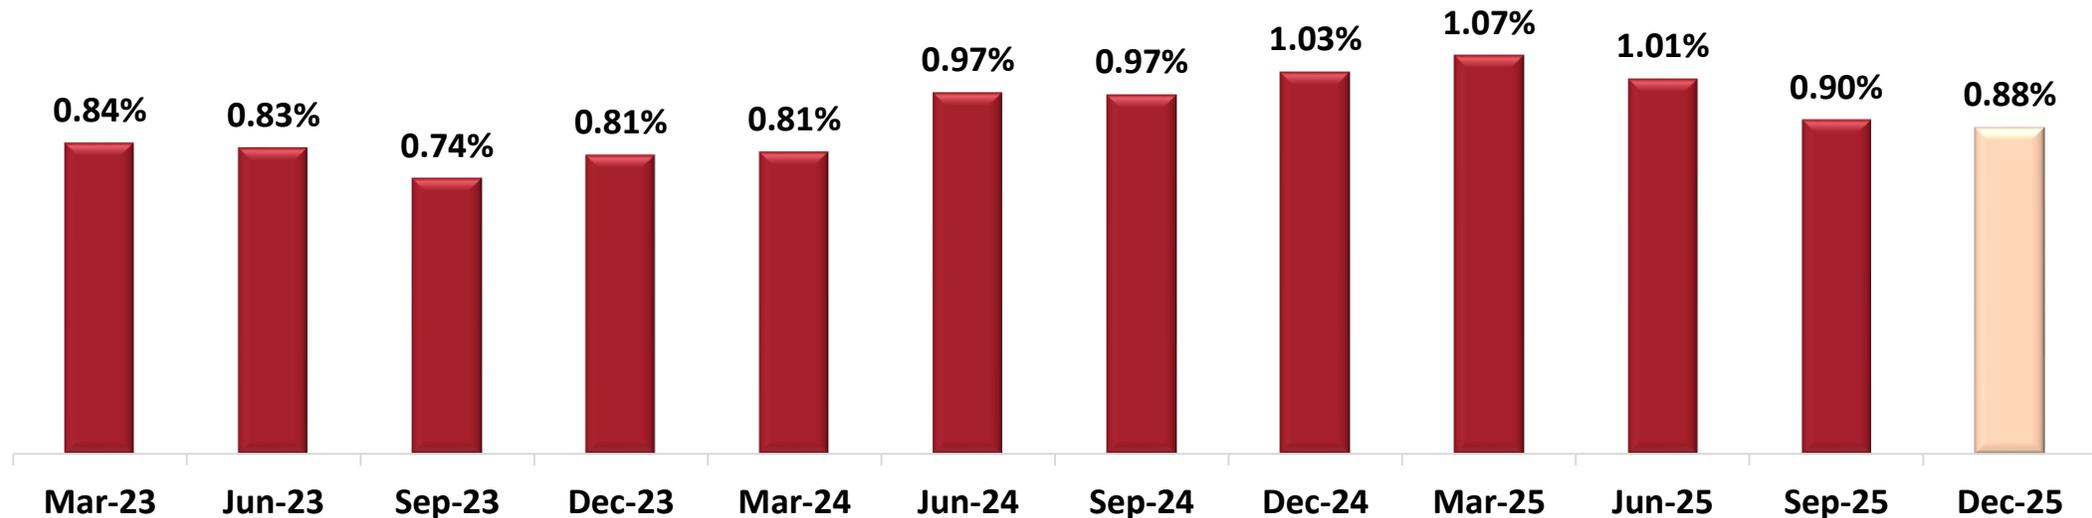

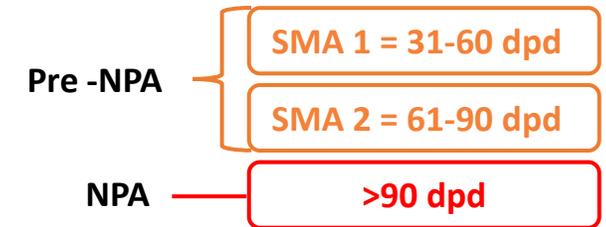

Note: The above figures are quarterly average of monthly collection efficiency for current bucket.

\*Excluding microfinance, Operating Income (ex. Trading gain) increased by **15%** YoY

## Breakup of Fee & Other Income – 9M FY26

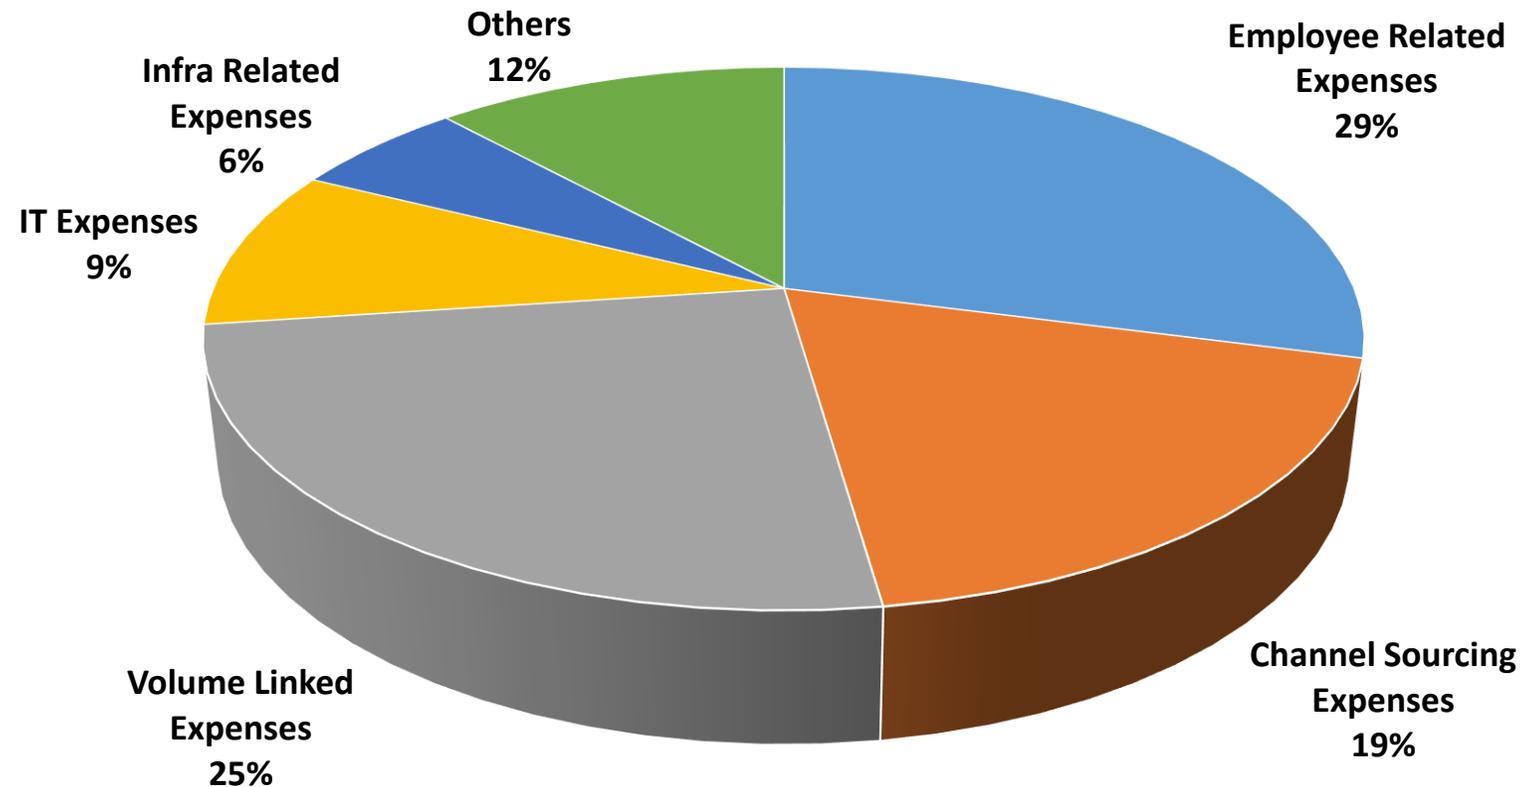

- **91%** of the fee income & other income is from retail banking operations.
- Fee to Average total assets stood at **2.04%** for 9M FY26.

## Composition of Operating Expenditure (9M FY26)

**Volume linked expenses** include collection cost, Risk Containment Unit cost, credit administration cost, DICGC premium, credit card reward cost, UPI & RTGS charges etc. **Channel Sourcing expenses** included commissions & charges paid to the channels. The Bank has incurred set up costs during the last 6 years and plans to leverage the same in the coming years.

**Variable Expenses (Volume linked expenses and Channel sourcing expenses) grew by 16% YoY whereas the fixed expenses grew 9% YoY**

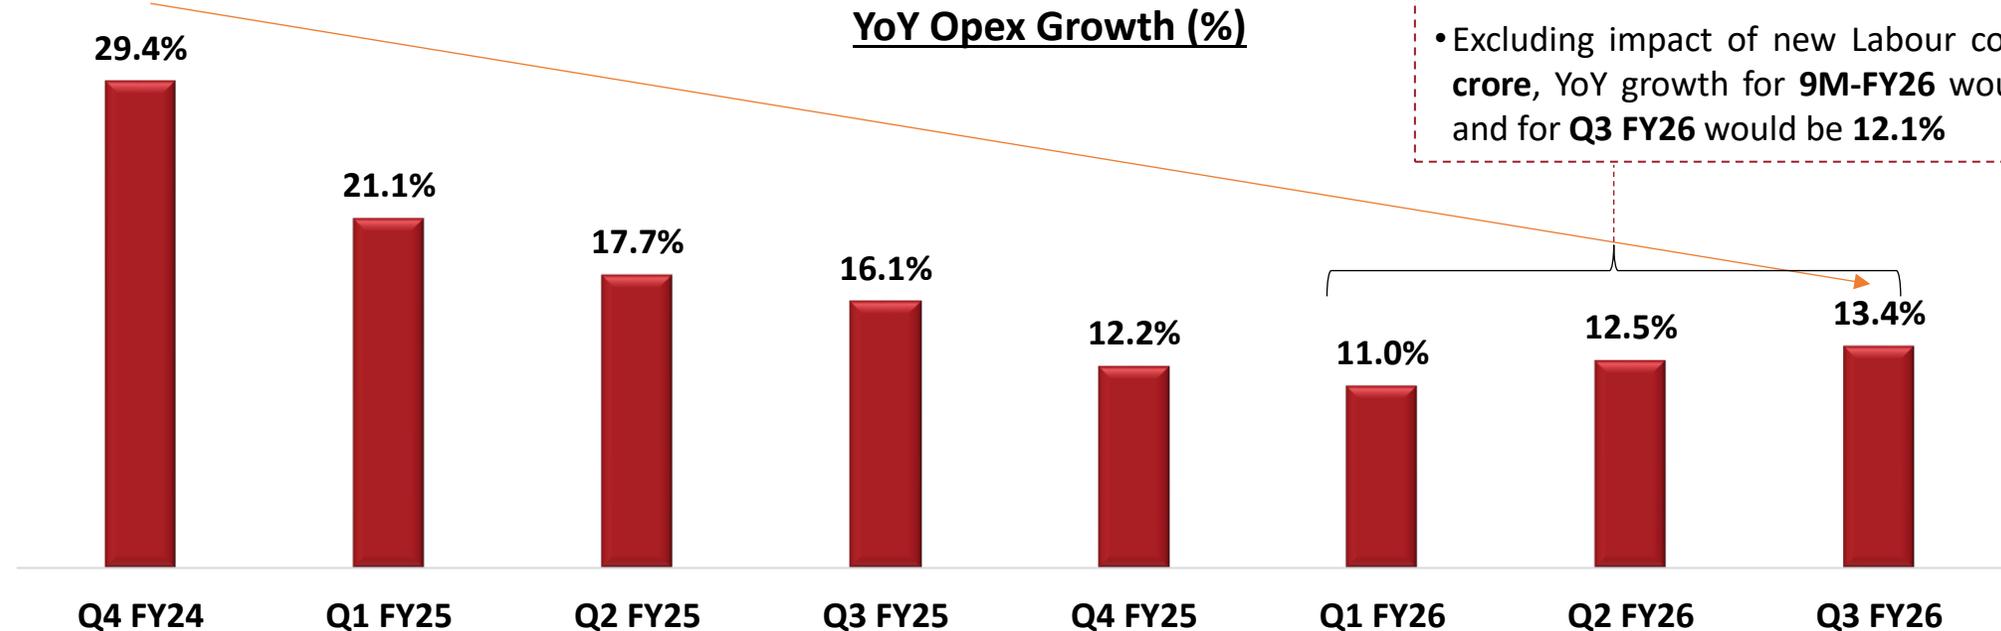

## OPEX growth of 12.4% YoY against Business growth of 22.6% YoY

In FY25, total Business (loans + customer deposits) grew by **22.7% YoY**, but Opex increased only by **16.5% YoY**

In 9M FY26, total Business grew by **22.6% YoY**, but Opex increased by **12.4% YoY**

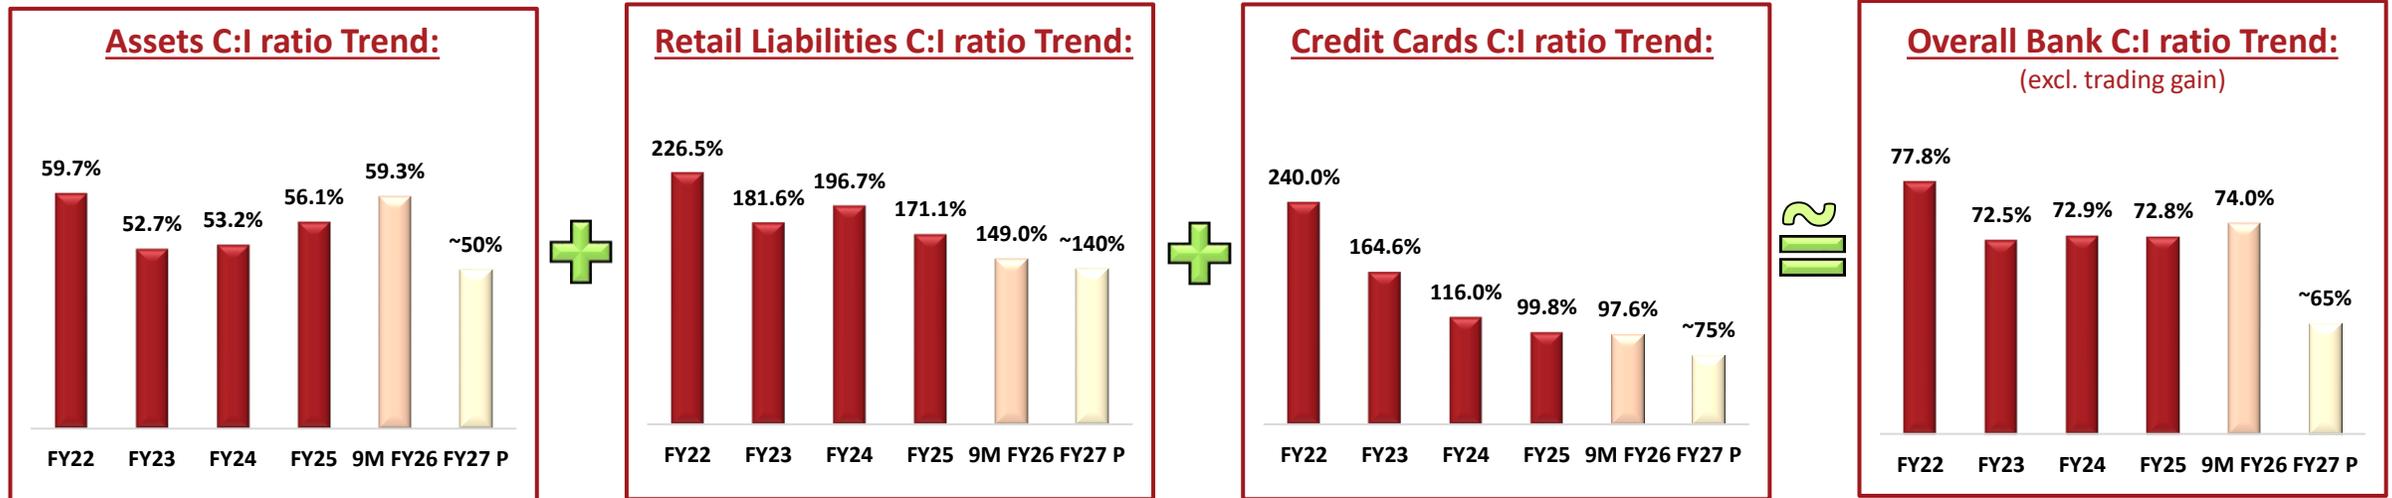

**This clearly represents the benefit of operating leverage. Bank expects to maintain improvement in operating leverage going forward based on digital capabilities built over the last few years.**

- Operating expenses grew by **12.4% YoY** in the last **9 months**
- Excluding impact of new Labour code of **Rs. 65 crore**, YoY growth for **9M-FY26** would be **11.9%** and for **Q3 FY26** would be **12.1%**

## Targeting to bring down the Cost to Income Ratio over next 2 years

- Bank intends to grow branches only about 10% annually against estimated deposit growth of ~25%.
- Credit Cards C:I has come down from 240% to 98% in ~4 years
- Including trading gain, the C:I ratio stood at 71.8% in 9M-FY26
- Bank expects Economies of scale reduce C:I going forward.

\*C:I ratio in Assets increased because of reduction in microfinance book, which resulted in reduced income and reduction in yields because of passing on Repo Rate cuts to customers. C:I. is expected to reduce as the book stabilizes, and growth resumes.

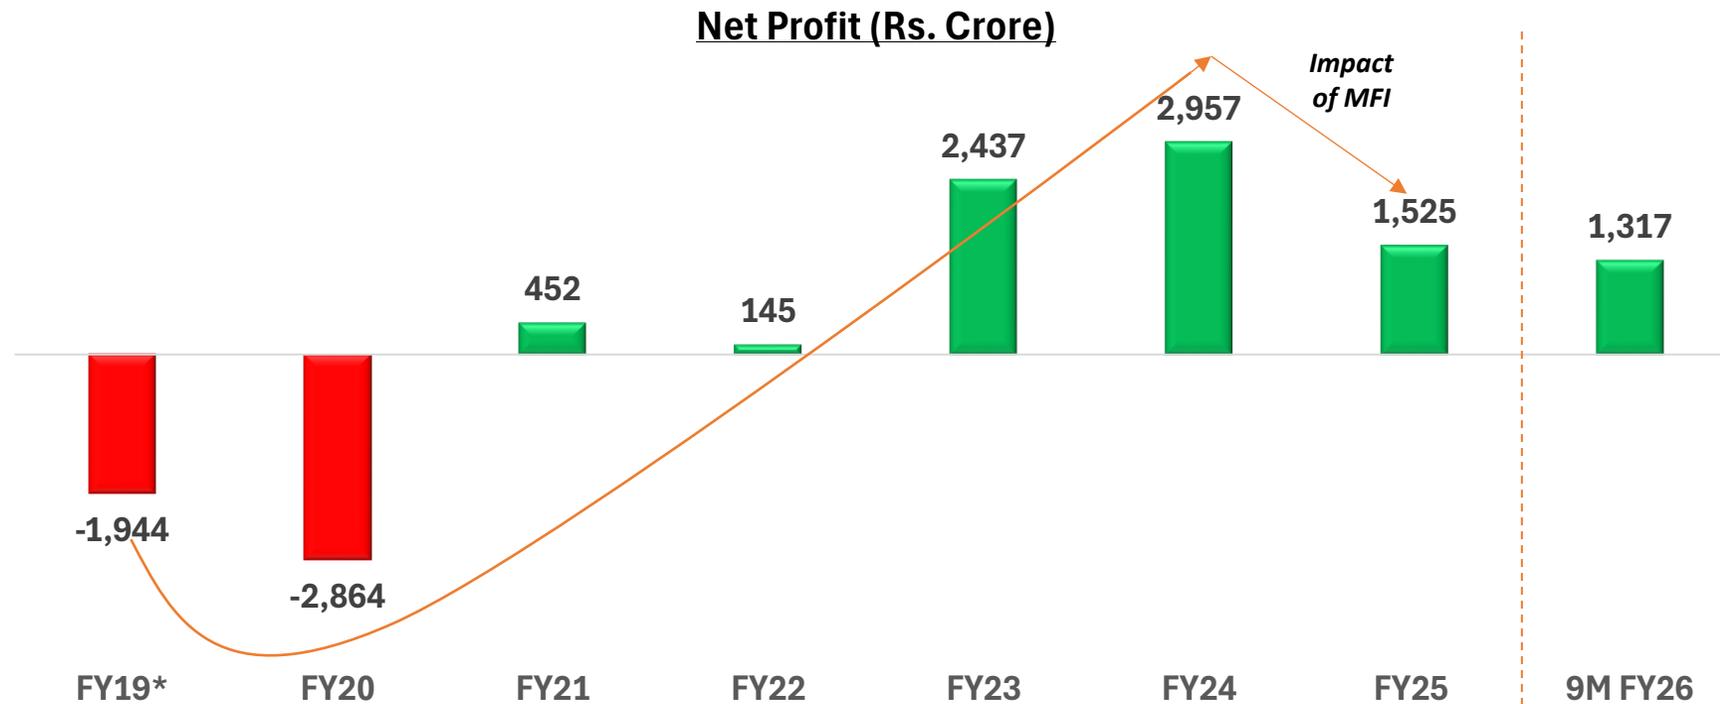

Notes. 1. Assets include Retail, Rural, MSME, Business Banking and Wholesale Banking. Since, Business Banking Business (working capital financing to small businesses) is a lending business, numbers of this division have been grouped with Assets. The above numbers are based on internal transfer pricing and allocations.

**Disclaimer:** Kindly note that the aspirations mentioned above have been presented in good faith based on our internal estimates and current business environment. The Bank may or may not be able to achieve the same based on multiple factors such as interest rate movements, regulatory changes, macro-economic changes, geo-political factors, change in business model and any other factors unknown to us at this stage

## Strong growth in core profitability; trajectory temporarily impacted by MFI crisis

Dec-25

- The Asset Businesses (Retail, Rural, MSME & Wholesale Banking) have strong profitability. However, as a new bank since we are investing in building the deposit franchise. Hence Retail Liability business and Credit Cards are yet to break even.
- FY25 and 9M-FY26 is primarily impacted by microfinance business
- For 9M FY26, Return on Assets stood at **0.48%** and Return on Equity stood at **4.11%**, to improve with operating leverage and scale

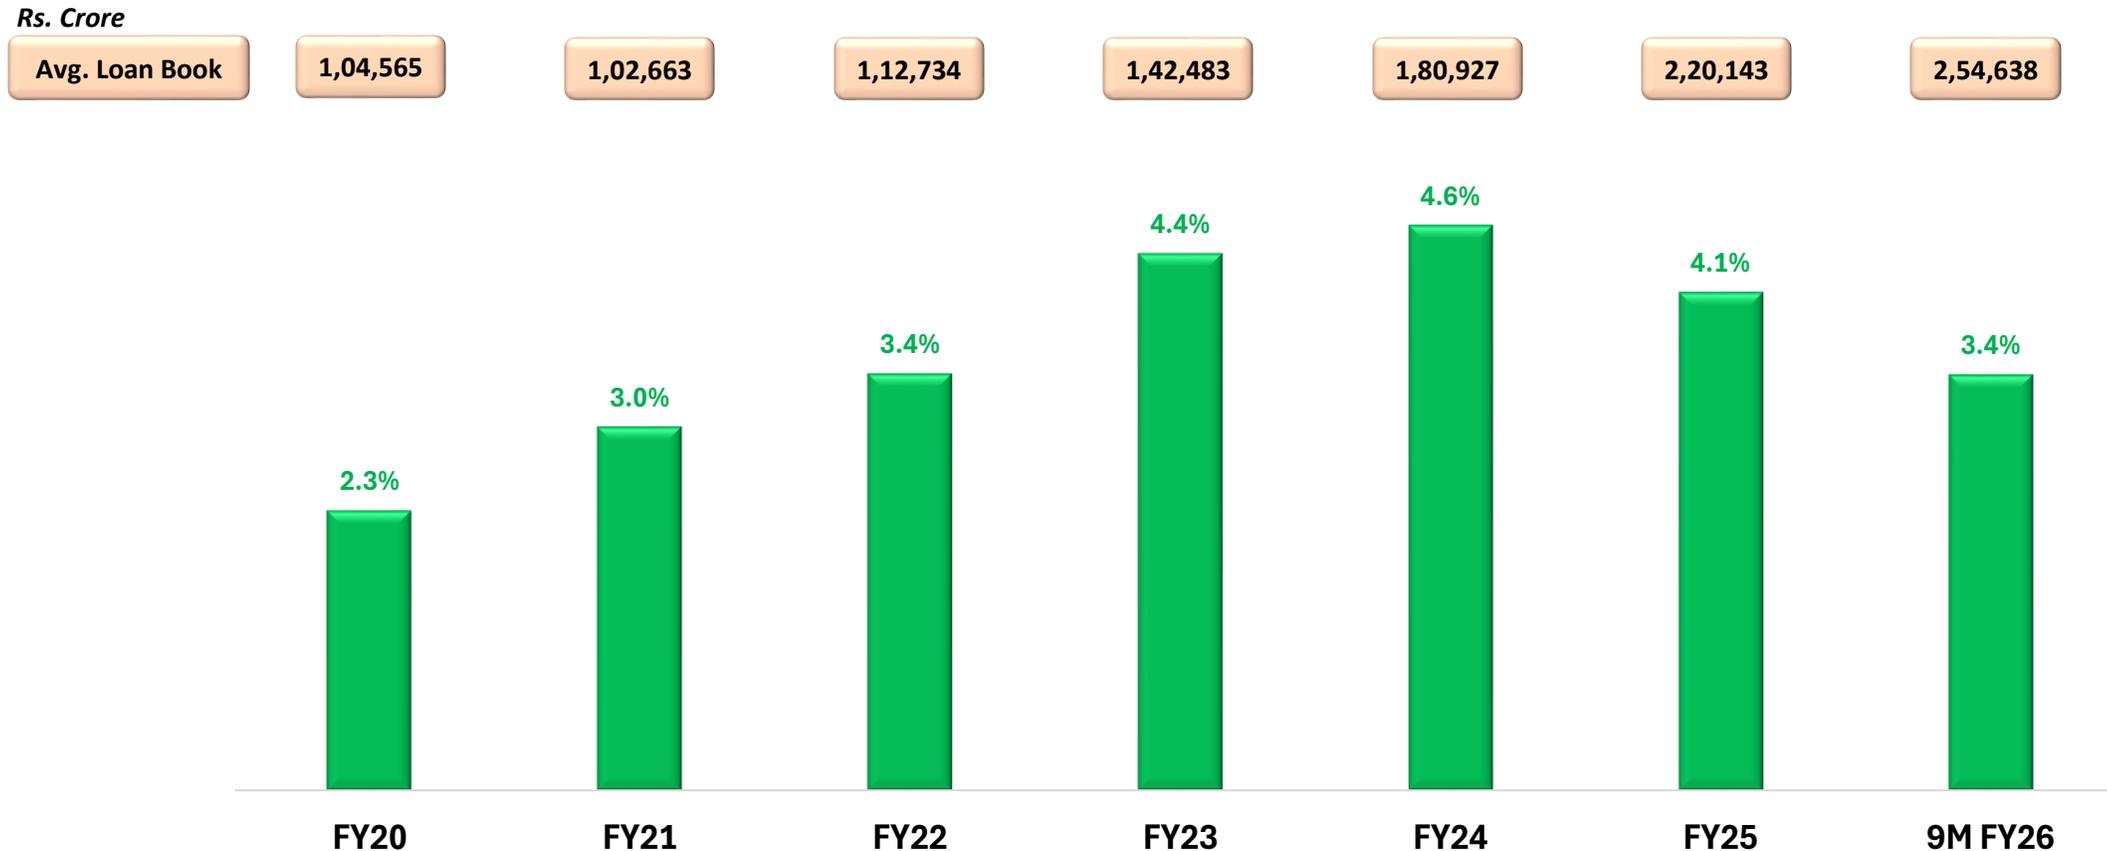

\*Reported Profit After tax for FY19

## Assets (Retail Loans, Credit Cards & Wholesale Banking) : Profitability

As mentioned earlier, the Asset Businesses (Retail, Rural, MSME, Credit Cards & Wholesale Banking) have strong profitability. The reduction in FY25 and 9MFY26 is primarily due to impact of passing on repo rate cut to customers & asset mix change due to steep decline in the micro-finance loan book. Assets Operating Profits % are expected to increase from here on as current repo rate cuts have fully been passed on, improvement in CoF, and as portfolio mix stabilises.

### Operating Profit as a % of Average Loan Book (Retail + Credit Cards + Wholesale)

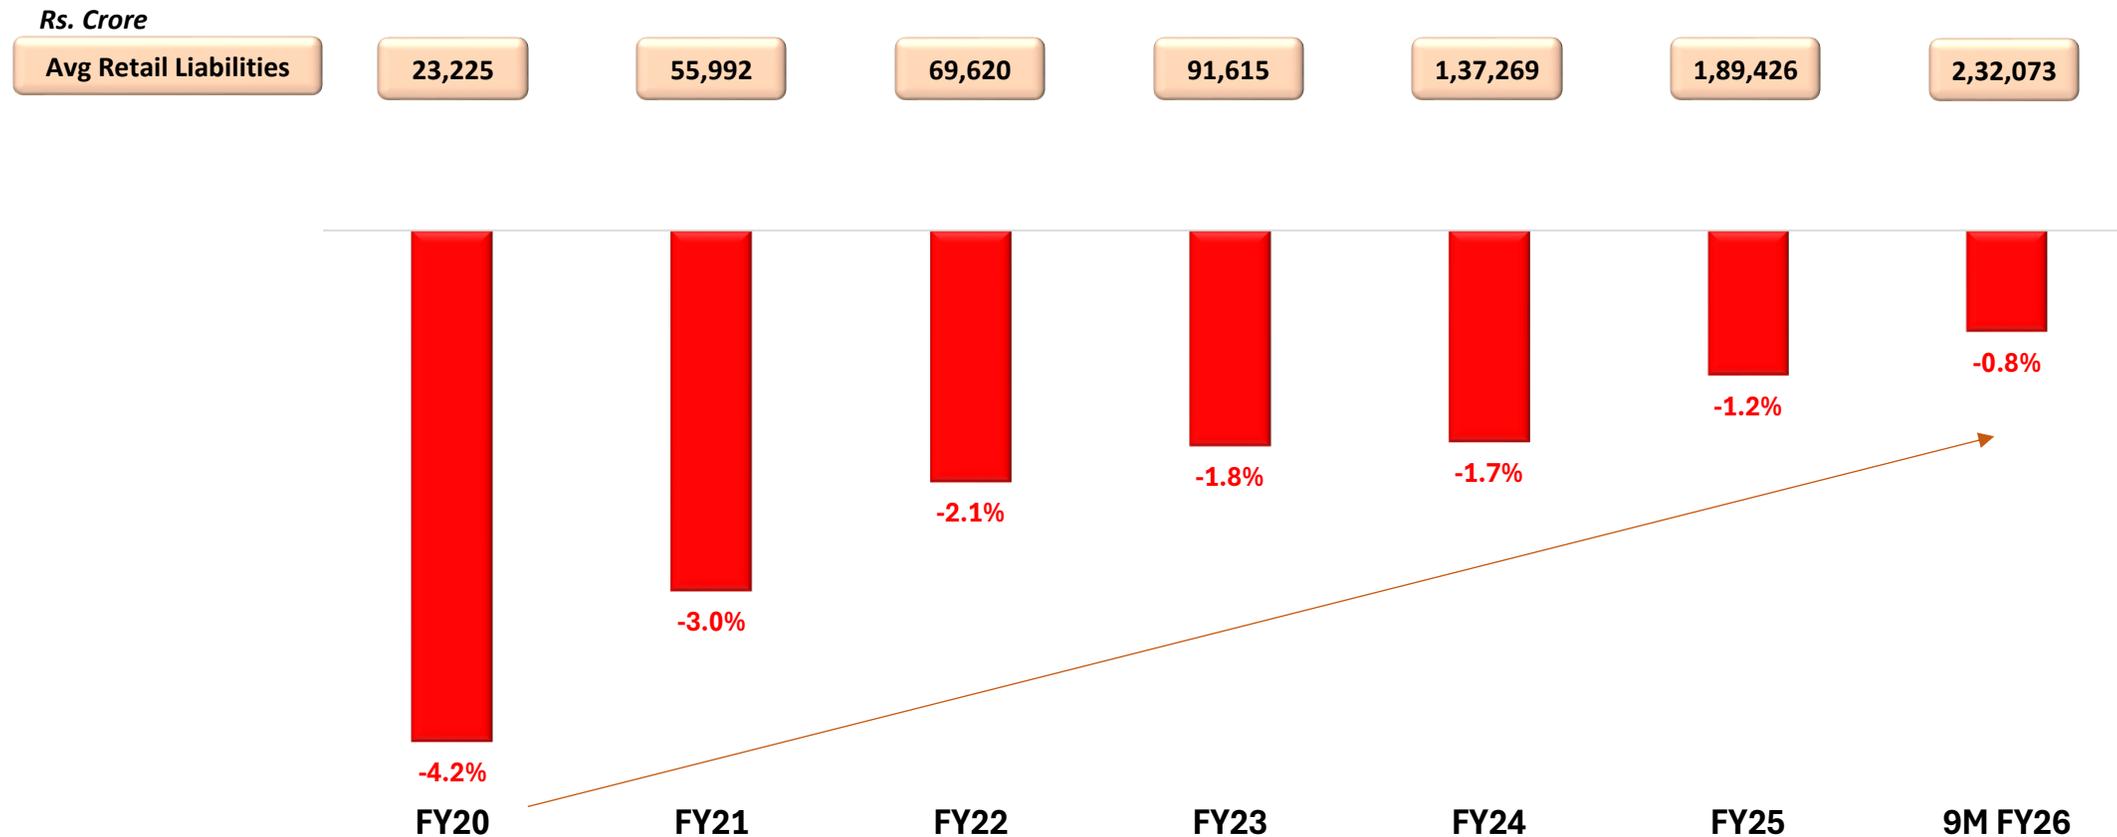

*Since Credit Card has achieved operational breakeven, it has been merged with Assets; above numbers are based on internal transfer pricing of the Bank*

# Retail Liabilities Business : Moving towards break even with scale and productivity

Dec-25

Being a new Bank, we invested in building necessary branch infrastructure, people, digital platforms and other capabilities. With increasing scale, Operating losses as % of Deposits continues to reduce, trend expected to continue. Overall profitability of Bank to be positively impacted with breakeven of deposit business

## Operating Profit as % of Average Retail Liabilities

Based on internal transfer pricing of the Bank; Average Retail Liabilities includes deposits raised through retail banking & government banking group

## Board of Directors: MD & CEO Profile

Vaidyanathan aspires to create “a world-class Indian Bank, guided by ethics, powered by technology, and to be a force social good”. He became the Managing Director and CEO of IDFC FIRST Bank in December 2018 following the merger of Capital First and IDFC Bank.

Previously, he worked with Citibank (1990-2000) and ICICI Bank (2000-2010), where he built a large retail banking division, expanding branches to 1,411, grew CASA and retail deposits to ₹ 1 trillion, and grew retail lending, including mortgages, auto loans, MSME and Rural banking to ₹1.35 trillion (\$15bn). He was appointed to the Board of Directors of ICICI Bank in 2006 at age 38. He later served as MD and CEO of ICICI Prudential Life.

Chasing an entrepreneurial opportunity, he left ICICI in 2010 to acquire a stake in a small real-estate financing NBFC with a market cap of ₹780 crore (\$89m), with an idea to convert it to a commercial Bank.

He pledged his stock and home to raise funds, renamed the NBFC as Capital First, and transformed it by exiting real-estate financing and focusing on retail & MSME lending using tech-driven algorithms. He demonstrated the Proof-of-Concept to PE firms, raised ₹810 crore (\$93m) in equity by 2012, recapitalized the company, and became Chairman and CEO."

Capital First grew its retail loan book from ₹94 crore (\$11m) in 2010 to ₹29,600 crore (\$3.4b) by 2018, serving 7 million customers with high asset quality. The company turned around from losses of ₹30 crore (\$3m) to profits of ₹358 crore (\$41m) during this period. Its share price increased from ₹122 in 2010 to ₹845 in 2018, with market cap rose tenfold to ₹8,200 crore (\$939m). In 2017, Vaidyanathan sold 1.5% of his personal stake in Capital First to repay the loan used to acquire his ownership. To secure a commercial banking license for Capital First, he merged it with IDFC Bank in 2018 and became the MD and CEO of IDFC FIRST Bank.

Post-merger, the loan book expanded to ₹ 2,79,428 crore (\$31.3b) with significant growth in retail, rural, and MSME finance. Customer deposits increased from ₹38,455 crore (\$4.3b) to ₹ 2,82,662 crore (\$32.7b) between 2018 and 2025, while the CASA ratio rose from 8.7% to 51.6%, and NIM at 5.7%. The bank turned profitable with a FY25 PAT of ₹1,525 crore (\$171m).

He has been recognized by numerous awards including “Banker of the Year 2023” by leading Indian publication Financial Express, Ernst and Young "Entrepreneur of the Year" 2022 for Financial Services, "Entrepreneur of the Year" 2020 by CNBC Awaaz, "Most Inspirational Leveraged Management Buyout, India 2018" by CFI Awards, London, "Most Innovative Company of the Year" 2017 by CNBC Asia, "Entrepreneur of the Year 2016 and 2017" from Asia Pacific Entrepreneurship Award, "Most Promising Business Leaders of Asia" by Economic Times in 2016, Business Today - India's Most Valuable Companies 2016 & 2015, Economic Times 500 India's Future Ready Companies 2016, Fortune India's Next 500 Companies 2016.

# Background: IDFC FIRST Bank was created by merger of IDFC Bank and Capital First

Dec-25

IDFC BANK

IDFC Limited was created in 1997 for financing infrastructure. IDFC Bank Limited was formed as a part of demerger from its parent IDFC Limited on October 21, 2014.

2012-13

IDFC Limited, then a non-banking finance company focused on infrastructure financing, applied to RBI for a banking licence.

2014-15

RBI granted in-principle approval to set up a bank within 18 months. IDFC Limited raised ₹1,000 Cr via QIP at ₹137/share. IDFC Bank Limited was incorporated on 21 Oct 2014.

2015-16

IDFC Bank was inaugurated by PM Narendra Modi on 19 Oct 2015. Began operations with 23 branches, corporate internet banking, and Aadhaar-enabled micro-ATMs.

2016-17

Acquired Grama Vidiyal Micro Finance to strengthen rural outreach. Opened its first North-East branch in Shillong. Launched IDFC Aadhaar Pay, India's first Aadhaar-linked merchant payment solution. CASA reached ₹2,094 Cr; funded assets stood at ₹66,567 Cr (Mar'17).

2017-18

Featured in LinkedIn Top Companies 2017. Merger discussions with Shriram Group were explored but called off. Launched 100th branch; total 127 branches across 18 states. On 13 Jan 2018, announced merger with Capital First, subject to approvals. CASA reached ₹5,710 Cr; funded assets ₹70,099 Cr (Mar'18).

Capital First was an NBFC created in 2012, focussed on MSME and retail loans through technology driven lending models.

2012-13

Company operated mainly in Wholesale Financing, PE, Asset Management, FX, and Retail Broking. Total AUM was ₹935 Cr, of which Retail AUM was ₹94 Cr (10%).

2012-13

V. Vaidyanathan acquired equity stakes in company, concluded MBO, divested for Forex JV, merging the NBFC subsidiary, wound down non-core businesses, and launching tech-driven retail lending. Retail loan book crossed ₹700 Cr by Mar'11, becoming proof-of-concept for global PE investors.

2014-15

Continued engaging PE investors; further exited non-core subsidiaries; scaled retail financing. Retail book grew to ₹3,660 Cr (44% of AUM), validating the model.

2012-13

Secured ₹810 Cr equity from PE backing, enabling the MBO and creation of Capital First. Conducted open offer, raised ₹100 Cr fresh equity, reconstituted the Board, and launched the new brand.

2014-15

Raised ₹178 Cr equity at ₹153/share. Obtained HFC license from NHB and launched housing finance through a wholly-owned subsidiary.

2015-16

AUM reached ~₹12,000 Cr; customers financed crossed 10 lakh. Raised ₹300 Cr via QIP at ₹390/share from marquee investors.

2014-15

Featured in Business Today – India's Most Valuable Companies, D&B India's Top 500, and included in S&P BSE 500 Index.

2016-17

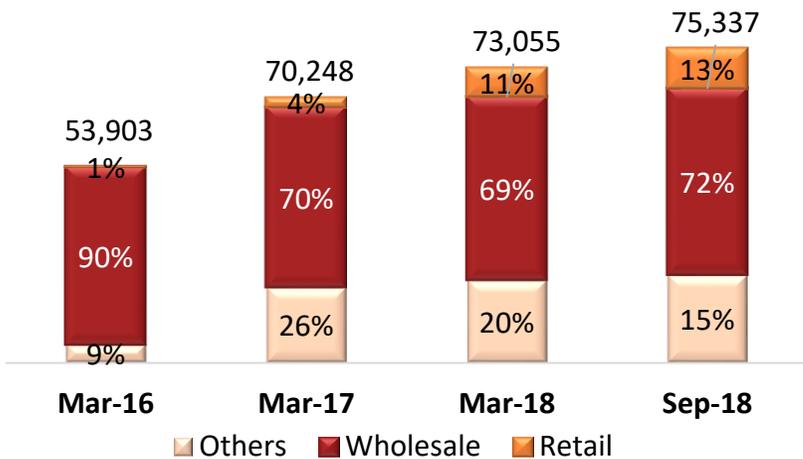

AUM reached ~₹20,000 Cr; customers financed crossed 4 million. Raised ₹340 Cr from GIC (Singapore) via preferential allotment at ₹712/share. Received several awards including CNBC Asia IBLA and ET Future Ready Companies.

2017-18

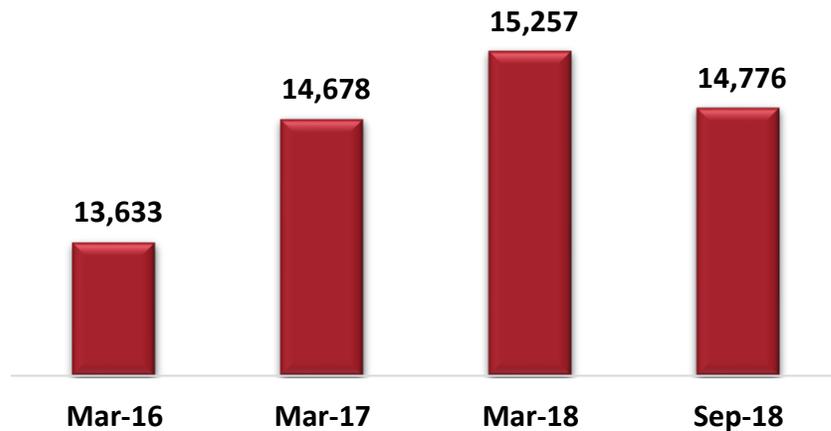

AUM touched ~₹27,000 Cr; customers crossed 6 million. Won ET Best BFSI Brand and VC Circle Financial Services Company awards. Announced merger with IDFC Bank in Jan 2018 (subject to approvals).
