Background

Our Vision

BUILDING A WORLD CLASS BANK

**GUIDED BY
ETHICS**

**POWERED BY
TECHNOLOGY**

**BE A FORCE FOR
SOCIAL GOOD**

Background: IDFC FIRST Bank created by merger of IDFC Bank and Capital First

Mar-26

- **IDFC Limited** was created in 1997 for financing infrastructure.
- **IDFC Bank** was created by IDFC Limited, in 2016.
- The loan book of IDFC limited was transferred to IDFC Bank at inception in 2016.
- IDFC Bank had assets of Rs. 75,332 crore as of September 30, 2018, of which 86% was in wholesale loans.
- IDFC Bank was looking to set up a deposit franchise and diversify into Retail Banking

- Capital First was an NBFC created in 2012, focussed on MSME and retail loans through technology driven lending models.
- It had grown its Assets under Management from Rs. 934 crore on March 31, 2010 to Rs. 32,623 crore on September 30, 2018.
- It had a track record of growth, profits and asset quality.
- Capital FIRST was looking for a commercial bank license to get a steady source of funding for its long-term growth.

IDFC FIRST Bank was created through the merger of IDFC Bank and Capital First, on 11th December 2018, when all regulatory and legal approvals were received, announced to the public, and the new management took charge.

Pre-merger Financials (30th September 2018)

	Parameters (Rs. Crore)	CAPITAL FIRST	IDFC Bank	Proforma

Profitability numbers are for H1 FY19. AUM of Capital First as on 30 Sep 2018 was Rs. 32,623 crore including on-book of Rs. 26,994 crore and Off-Balance Sheet book of Rs. 5,629 crore. Figure above in the chart represents Loans and Assets on books.

Bank has made significant progress since merger

Mar-26

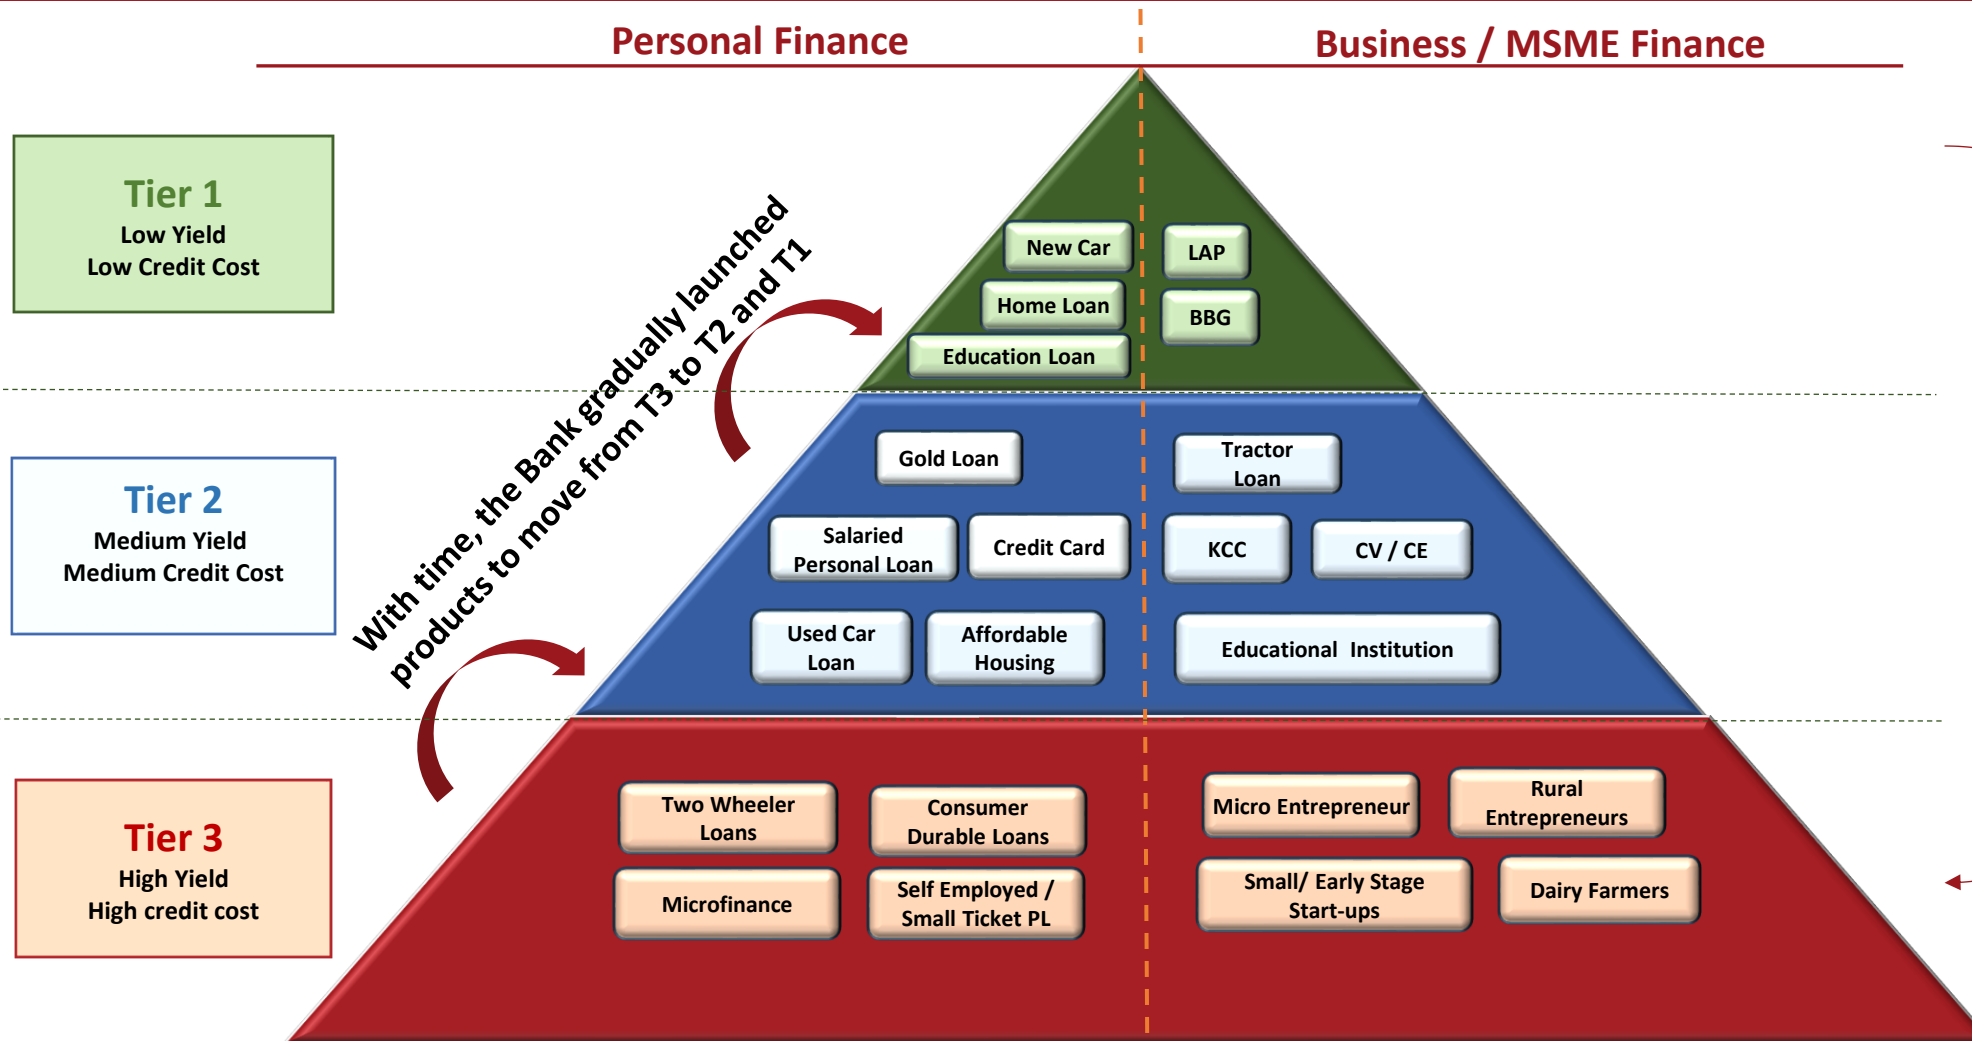

- **Loan Book** grew at a CAGR of **15%** from Rs. 1,04,660 crore as on Dec-18 to **Rs. 2,90,278 crore** as on March 31, 2026
 - **Customer Deposits** grew at a CAGR of **32%** from Rs.38,455 crore as on December 31, 2018 to **Rs. 2,84,453 crore** as on March 31, 2026
 - **CASA Deposits** grew at a CAGR of **58%** from Rs.5,274 crore as on December 31, 2018 to **Rs. 1,46,650 crore** as on March 31, 2026
 - **CASA Ratio** improved from 8.7% as on December 31, 2018 to **49.8%** as on March 31, 2026
 - **Branches** grew **5.6x** from 206 branches in December 31, 2018 to **1,147 branches** as on March 31, 2026
 - **Net Interest Margin (NIM)** has improved by **265 bps** from 3.10% in Dec-18 to **5.75%** in FY26
 - **Core PPOP to Average Assets** improved by **126 bps** from 0.78% in Dec-18 to **2.06%** in Mar-26
 - **Cost to Income Ratio** improved by **987 bps** and reduced to **72.3%** in FY26 as compared to 82.2% in Q3 FY19
 - **GNPA Ratio** has reduced from **1.97%** as on December 31, 2018 to **1.61%** as on March 31, 2026
 - **NNPA Ratio** has reduced from **0.95%** as on December 31, 2018 to **0.48%** as on March 31, 2026
- *Core PPOP and C:I mentioned above, excludes the impact of the fraud incident reported during the quarter, including the impact, the Core PPOP would be 1.9% and C:I ratio would be 74.5%*
- *NIM is Gross of IBPC and Sell-down for FY-26 | Cost to Income Ratio includes trading gains*

2.

ASSETS

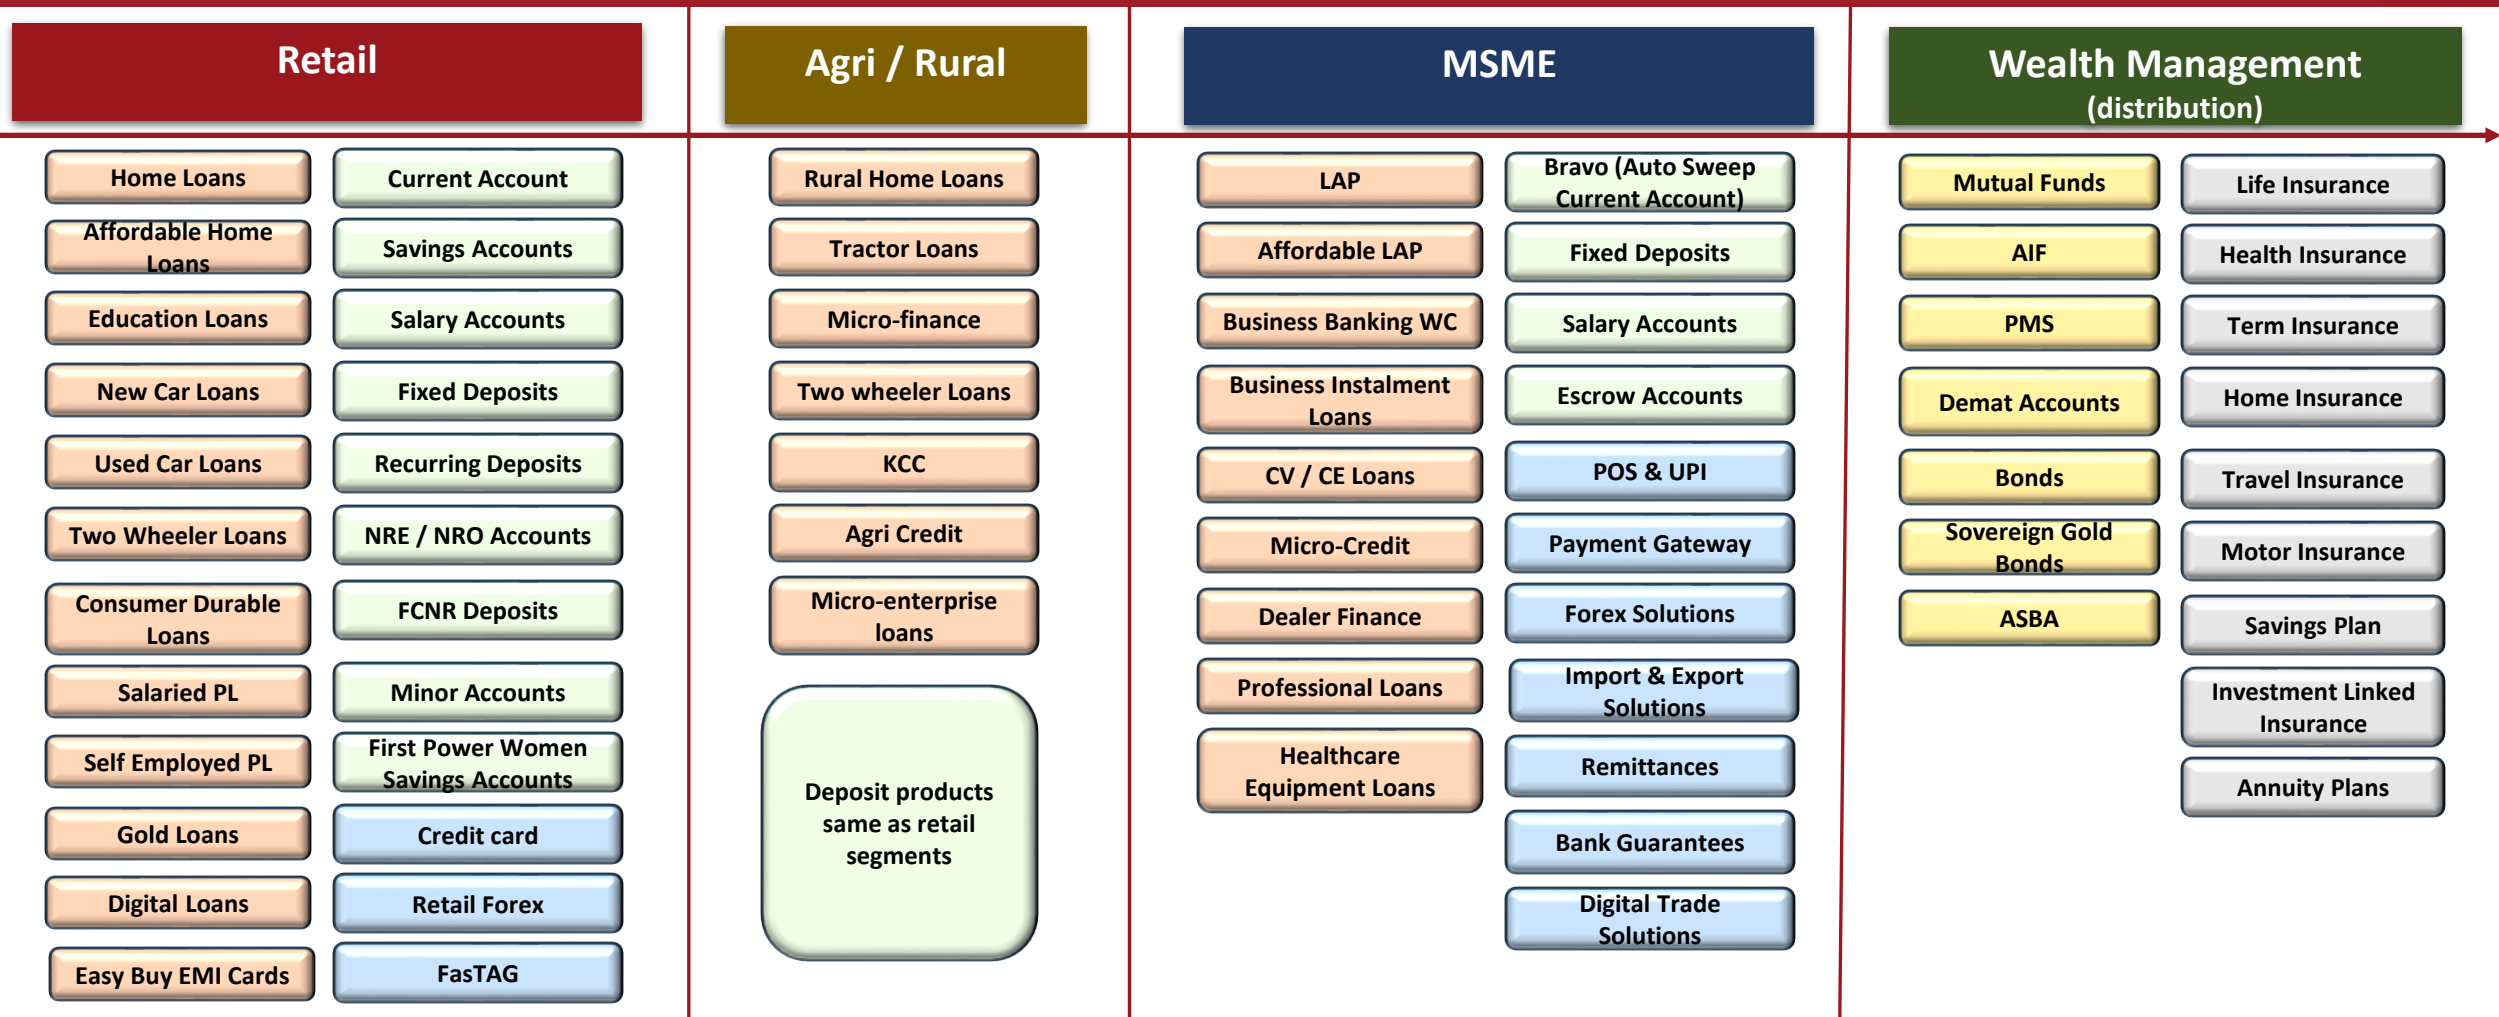

Bank has a judicious mix of segments to achieve overall yield of ~13% and credit cost of < 2%

- With a healthy mix of these three segments and including corporate loans, we are currently building a loan book with a yield of ~13% with credit cost of < 2.0% of loan book.
- A unique and distinctive capability with risk adjusted yield at 11%+
- This is further improved with the advanced use of Indian digital ecosystems and specialized credit controls.
- IDFC is a digitally advanced bank and is able to lend to these segments in a controlled manner.

- We started our Retail, Agri, MSME (RAM) portfolio in 2010 by lending in the Tier-3 segment at ~20%, with borrowing cost at 12-13%.
- With merger with IDFC Bank, the institution got cost of funds of a Bank.
- This gives the bank a unique advantage of participating in these segments of inclusive banking with Bank type cost of funds.
- Over time we have been moving to lower risk segments of Tier 1 and Tier 2 because of lower cost of funds.

Retail, Agri and Rural, MSME (RAM) segment product offerings

These products and services catering to various segments imparted through the following channels

Bank App

Branches

Call Center

Internet
Banking

WhatsApp

The Bank has built a full Suite of Universal Banking Products

Bank has developed specialization in RAM book; grown consistently for 15 years

Mar-26

RAM = Retail, Agri and MSME book

Retail, Agri and MSME (RAM) Book (Rs. Crore)

The Bank has developed specialization in *Cash Flow Evaluation & Digital Capabilities* for these businesses

Wholesale Business

Mar-26

Post merger, the bank unwound around **Rs. 20,700 crores** of project financing infrastructure book and reduced it to nearly nil now.

- From our experience, we have learnt to finance businesses that are already generating the cash that is required for servicing loan, and prefer not to take project financing risks.
- The bank has a strong governance mechanism of lending corporate credit with a diversified portfolio across multiple industries.
- Since December 2018, the bank has built a corporate funded book of ~Rs. 55,000 crores with high asset quality.
- The bank intends to continue to grow the same with similar tight lending practices.
- In addition to the lending book, the bank sees opportunities in transaction banking (trade, LC, BG, cash management) Forex, supply chain, salary accounts, and providing wholesome banking to our customers.

Rating wise distribution ^

**Total Corporate Exposure of Rs. 87,155 crore
(including non-funded)**

Wholesale Loan Book growth trend since inception; YoY growth of 30%

Wholesale Loan Book (Rs crore)

Corporate loans includes PSL Buyouts, Security Receipts etc.

Bank reduced concentration risk in Wholesale lending

Mar-26

Also, the exposure to top 20 single borrowers reduced from 16% in Mar-19 to 5% in Mar-26

Further, the exposure to top 5 industries also reduced from 41% Mar-19 to 20% in Mar-26 which has further strengthened the balance sheet.

Total Loans and Advances (RAM and Wholesale) grew @ 20%

Mar-26

Total Customer Deposits growth strong at 17% YoY

Total Customer Deposits = Retail Customer Deposits + Wholesale Customer Deposits (Excludes Certificate of Deposits)

Total Customer Deposits

In Rs. Crore

Average Customer Deposits for FY26 grew 25% YoY

CASA Deposits growth strong at 24% YoY

CASA Deposits

Average CASA Deposits grew by 3.7% sequentially in Q4 FY26
Average CASA Ratio for Q4 FY26 stood at 50.4% as compared to 50.0% in Q3 FY26

Average CASA Deposits for FY26 increased by 32% YoY (Average CA 33% YoY; Average SA 32% YoY)

The CASA balance during the quarter was affected by reduction of interest rates in savings accounts by 50 to 200 bps, and impact of the one-off incident during the quarter. The inflows from customers have already normalized during April 2026, and the bank expects normalized growth in deposits from Q1 FY27 onwards

Bank has diversified its liabilities base with 79% Customer Deposits in Retail

Mar-26

Retail deposits have increased from 27% of deposits at merger (Dec-18) to 79% currently which has significantly stabilized the deposits side.

Customer Deposits (Rs. Crore)

Cost of Funds now levelled up with Mid-Tier Banks

- The Bank has reduced cost of funds by 180 bps in 7 years
- On QoQ basis, the cost of funds reduced by **11 bps** to **6.00%** (calculated on daily average balance) in Q4 FY26
- Cost of Deposits of the Bank was at **5.93%** for Q4 FY26 as compared to **6.07%** in Q3 FY26 (calculated on daily average balance)

During the last seven years, IDFC Bank has reduced cost of funds by 180 basis points by increasing CASA to ~50%, against mid-tier banks who have reduced cost of funds by 21 bps

Credit Deposit Ratio reduced from 137% at merger to 96.4%

ASSET QUALITY

The fundamental underwriting principle of the Bank explained

- A. The Bank specializes in **cash flow** assessment through bank statement, GST, bureau EMI etc.
- B. In addition, Bank takes debit instruction for debiting EMI to customer bank account.

Combination of **A+B** put together practically works as an escrow.

In MFI business, we do not have debit instructions for EMI; Collections are done physically on due dates.

The bank follows a **stringent, 10-step underwriting process**, depending upon product to product, that meticulously evaluates potential borrowers by performing initial "no-go" criteria checks, comprehensive fraud detection, physical field verifications, financial ratio analysis, title deed verification, detailed cash flow analysis, personal discussions to confirm credentials and purpose of funds, and final assessments using credit scorecards and extensive credit bureau checks.

The Bank collection efficiency strong at 99.6% (Excluding micro-finance)

Mar-26

Collection Efficiency % = (Pos of EMI Collected for the Month)/(Pos of EMI Due for the month) %

Collections % do not include any arrear or prepayment collections and hence represents true collections efficiency.

- Numbers above pertain to collection efficiency in current bucket in Retail portfolio (excluding rural financing) which is the majority of the Book.

Note: The above figures are quarterly average of monthly collection efficiency for current bucket.

MFI Collection Efficiency reached Pre-crisis levels at 99.7%

Collection Efficiency % = (Pos of EMI Collected for the Month)/(Pos of EMI Due for the month) %

Collections % do not include any arrear or prepayment collections and hence represents true collections efficiency.

- SMA Pool now stands at **Rs. 79 crore** as compared to **Rs. 141 crore** in Q3 FY26, indicating easing stress. It has declined **88%** since Mar-25
- Bank has utilised **Rs. 35 crore** during the quarter and continues to hold **Rs. 130 crore** as a contingency provision on the MFI book
- Disbursements since January 2024 are CGFMU-covered, with coverage at **89%** of total microfinance book as of March 31, 2026
- Microfinance Loan disbursements for Q4-FY26 were at **Rs. 1,487 crore** as compared to **Rs. 759 crore** in Q4-FY25 and **Rs. 1,174 crore** in Q3-FY26.

Note: The above figures are quarterly average of monthly collection efficiency for current bucket.

Operating Income	26,314	29,363	11.6%
Operating Income (Excl Trading Gain)	25,968	28,874	11.2%
Operating Expense	18,899	21,877	15.8%
Pre-Provisioning Operating Profit (PPOP)	7,415	7,485	1.0%
Operating Profit (Ex. Trading gain)	7,069	6,997	-1.0%
Provisions	5,515	5,653	2.5%
Profit Before Tax	1,900	1,833	-3.5%
Tax	375	196	-47.7%
Profit After Tax	1,525	1,636	7.3%

- Excluding microfinance, Operating Income (ex. Trading gain) increased by **16%** YoY
- Operating Expenses includes the impact of fraud incident amounting to principal of Rs. 646 crore in FY26 (Rs. 483 crore post-tax), excluding this Opex grew **12.3%** YoY
- During FY26, the Bank sold equity shares of a stressed power company resulting into a realized loss of Rs. 274 crore and corresponding provision release of the same amount. Accordingly, Trading income and Provisions have been grossed up to reflect an appropriate presentation.

Normalised Income Statement – Excluding one time impact items for Q4 FY26

Normalised PAT excludes the items that are one-time in nature, including the fraud incident, Treasury loss and Income Tax refund for Q4 FY26.

In Rs. Crore	Q4 FY25	Q3 FY26	Q4 FY26	Growth (%) QoQ	Growth (%) YoY
Operating Income	6,803	7,610	7,740	1.6%	13.8%
Operating Expense (Ex. Fraud Incident)	4,991	5,584	5,603	0.3%	12.3%
Operating Profit	1,812	2,033	2,137	5.1%	18.0%
Profit Before Tax	361	635	994	56.5%	175.3%
Profit After Tax [^]	304	503	746	48.4%	145.3%

- **Operating expenses** increased by **0.3%** QoQ and by **12.3%** YoY in Q4 FY26
- **Operating Profit** increased by **5.1%** QoQ and **18.0%** YoY in Q4 FY26
- **Profit After Tax** increased by **48.4%** QoQ and **145.2%** YoY in Q4 FY26
- **Normalised PAT for Q4 FY26** = Actual PAT (Rs. 319 crore) + Trading Loss post tax (Rs. 118 crore) + Loss from Fraud post tax (Rs. 483 crore) – Income Tax Refund (Rs. 174 crore)

[^] Corporate Tax rate assumed at 25%

NIM strong at 5.75%, increased meaningfully since merger

- After inception in 2015, the Bank had a low NIM which gradually got improved after the merger through the transformation of the loan book as well as the deposits and borrowing, resulting in better yield and reducing overall cost of funds.
- In FY25 and FY26, the NIM reduced from the peak levels due to drastic reduction of Micro-finance book due to the industry crisis.
- The Bank rationalized the legacy corporate and infrastructure book till FY24 as part of loan book transformation and balance sheet stabilization. From FY25 onwards, the Bank started growing the good quality corporate book as part of broader strategy. Along the same line, Bank also focused on low yielding secured long term retail loans incrementally. This would help the bank to gradually improve on the overall credit cost from the current levels.

Note: FY16, FY17 and FY18, NIMs are as per reported by erstwhile IDFC Bank in the respective period investor presentations

Breakup of Fee & Other Income – FY26

- 92% of the fee income & other income is from retail banking operations.
- Fee to Average total assets stood at **2.06%** for FY26 and **2.13%** for Q4 FY26.

Composition of Operating Expenditure (FY26)

Volume linked expenses include collection cost, Risk Containment Unit cost, credit administration cost, DICGC premium, credit card reward cost, UPI & RTGS charges etc. **Channel Sourcing expenses** included commissions & charges paid to the channels. The Bank has incurred set up costs during the last 6 years and plans to leverage the same in the coming years.

Variable Expenses (Volume linked expenses and Channel sourcing expenses) grew by 17.9% YoY whereas the fixed expenses grew 8.3% YoY.

Below numbers excludes the impact of fraud incident amounting to Rs. 646 crore.

OPEX growth of 12.3% YoY against Business growth of 18.6% YoY in FY26

Mar-26

In FY26, total Business (loans + customer deposits) grew by **18.6% YoY**, but Opex increased only by **12.3% YoY**

This represents the benefit of operating leverage. Bank expects to maintain improvement in operating leverage going forward based on digital capabilities built over the last few years.

*Excluding the impact of fraud incident in Q4FY26, operating expenses grew by **12.3%** in FY26.
Including the impact of fraud, operating expense for the year grew by **15.8%** in FY26*

Targeting to bring down the Cost to Income Ratio over next year

- The bank had targeted a C:I ratio of 65% for FY27 in Q1-25. Mainly because of the sharp reduction of the MFI Book due to crisis in the MFI industry from ~Rs. 13,000 crores in FY24 to ~Rs. 6,600 crores, the income was reduced and hence C:I did not come down to expected levels.
- However, the cost income ratio is expected to reduce from here on with scale and operating leverage.

Assets C:I ratio Trend:

The C:I ratio in the asset business improved gradually since merger, but was impacted the last two years because of the sharp degrowth in the microfinance business.

With the normalizing of the microfinance business, we expect it to reduce from 59.2% to around 50% over the next 4-5 years.

Retail Liabilities C:I ratio Trend:

Retail liability business is a new business set up by the bank to raise deposits.

Branches take time to get to profitability because of setup costs—branches, ATMs, people, technology, etc.

The C:I ratio has come down from 226% to 146% over the last 4 years, and we expect the trend to continue and reach 100% over the next 4-5 years.

Credit Cards C:I ratio Trend:

Credit card business was set up in FY22, and the C:I ratio has come down from 240% to 95.4% by FY26.

We expect the same trend to continue and reach the mid-sixties in the next 4-5 years.

Overall Bank C:I ratio Trend:

(excl. trading gain)

Taken together, as this trend plays out, we expect the C:I ratio to come down from the current level of 73.5% to ~55% over the next 4-5 years.

This will have a material impact on overall profitability at the bank.

C:I ratio for Retail Liabilities and Overall Bank excludes the impact of fraud incident

Disclaimer: Kindly note that the aspirations mentioned above have been presented in good faith based on our internal estimates and current business environment. The Bank may or may not be able to achieve the same based on multiple factors such as interest rate movements, regulatory changes, macro-economic changes, geo-political factors, change in business model and any other factors unknown to us at this stage

Strong growth in core profitability; trajectory temporarily impacted by MFI crisis

Mar-26

- The Asset Businesses (RAM & Wholesale Banking) have strong profitability even after factoring for provisions.
- The Bank is investing the profits from lending business into building the deposit, rural and other businesses.
- For FY26 excluding the impact of incident reported during Q4 FY26, the Return on Assets stood at **0.57%** and Return on Equity stood at **4.87%**, to improve with operating leverage and scale

Profit after Tax (PAT) pertaining to Mar-26 includes the impact of the fraud incident reported during the Q4 FY26, excluding this PAT would be Rs. 2,119 crore in FY26.

*Reported Profit After tax for FY19

Assets (Retail Loans, Credit Cards & Wholesale Banking) : Profitability

Mar-26

Operating Profit as a % of Average Loan Book (Retail + Credit Cards + Wholesale)

Rs. Crore

Above numbers are based on internal transfer pricing of the Bank

Retail Liabilities Business : Moving towards break even with scale and productivity

Being a new Bank, we invested in building necessary branch infrastructure, people, digital platforms and other capabilities. With increasing scale, Operating losses as % of Deposits continues to reduce, trend expected to continue. Overall profitability of Bank to be positively impacted with breakeven of deposit business

Operating Profit as % of Average Retail Liabilities

Based on internal transfer pricing of the Bank; Average Retail Liabilities includes deposits raised through retail banking & government banking group
FY26 includes the impact of the fraud incident

Capital Adequacy Ratio

Mar-26

In Rs. Crore	Mar-25	Dec-25	Mar-26

Board of Directors: MD & CEO Profile

Mar-26

Vaidyanathan aspires to create “a world-class Indian Bank, guided by ethics, powered by technology, and to be a force social good”. He became the Managing Director and CEO of IDFC FIRST Bank in December 2018 following the merger of Capital First and IDFC Bank.

Previously, he worked with Citibank (1990-2000) and ICICI Bank (2000-2010), where he built a large retail banking division, expanding branches to 1,411, grew CASA and retail deposits to ₹ 1 trillion, and grew retail lending, including mortgages, auto loans, MSME and Rural banking to ₹1.35 trillion (\$15bn). He was appointed to the Board of Directors of ICICI Bank in 2006 at age 38. He later served as MD and CEO of ICICI Prudential Life.

Chasing an entrepreneurial opportunity, he left ICICI in 2010 to acquire a stake in a small real-estate financing NBFC with a market cap of ₹780 crore (\$89m), with an idea to convert it to a commercial Bank.

He pledged his stock and home to raise funds, renamed the NBFC as Capital First, and transformed it by exiting real-estate financing and focusing on retail & MSME lending using tech-driven algorithms. He demonstrated the Proof-of-Concept to PE firms, raised ₹810 crore (\$93m) in equity by 2012, recapitalized the company, and became Chairman and CEO."

Capital First grew its retail loan book from ₹94 crore (\$11m) in 2010 to ₹29,600 crore (\$3.4b) by 2018, serving 7 million customers with high asset quality. The company turned around from losses of ₹30 crore (\$3m) to profits of ₹358 crore (\$41m) during this period. Its share price increased from ₹122 in 2010 to ₹845 in 2018, with market cap rose tenfold to ₹8,200 crore (\$939m). In 2017, Vaidyanathan sold 1.5% of his personal stake in Capital First to repay the loan used to acquire his ownership. To secure a commercial banking license for Capital First, he merged it with IDFC Bank in 2018 and became the MD and CEO of IDFC FIRST Bank.

Post-merger, the loan book expanded to ₹ 2,90,278 crore (\$31.8b) with significant growth in RAM (retail, agri and MSME) finance. Customer deposits increased from ₹38,455 crore (\$4.3b) to ₹ 2,84,453 crore (\$31.1b) between 2018 and 2025, while the CASA ratio rose from 8.7% to 49.8%, and NIM (FY26) at 5.75%. The bank turned profitable with FY26 PAT of ₹1,636 crore (\$179m).

He has been recognized by numerous awards including “Banker of the Year 2023” by leading Indian publication Financial Express, Ernst and Young "Entrepreneur of the Year" 2022 for Financial Services, "Entrepreneur of the Year" 2020 by CNBC Awaaz, "Most Inspirational Leveraged Management Buyout, India 2018" by CFI Awards, London, "Most Innovative Company of the Year" 2017 by CNBC Asia, "Entrepreneur of the Year 2016 and 2017" from Asia Pacific Entrepreneurship Award, "Most Promising Business Leaders of Asia" by Economic Times in 2016, Business Today - India's Most Valuable Companies 2016 & 2015, Economic Times 500 India's Future Ready Companies 2016, Fortune India's Next 500 Companies 2016.

Background: IDFC FIRST Bank was created by merger of IDFC Bank and Capital First

Mar-26

IDFC BANK

IDFC Limited was created in 1997 for financing infrastructure. IDFC Bank Limited was formed as a part of demerger from its parent IDFC Limited on October 21, 2014.

2012-13

IDFC Limited, then a non-banking finance company focused on infrastructure financing, applied to RBI for a banking licence.

2014-15

RBI granted in-principle approval to set up a bank within 18 months. IDFC Limited raised ₹1,000 Cr via QIP at ₹137/share. IDFC Bank Limited was incorporated on 21 Oct 2014.

2015-16

IDFC Bank was inaugurated by PM Narendra Modi on 19 Oct 2015. Began operations with 23 branches, corporate internet banking, and Aadhaar-enabled micro-ATMs.

2016-17

Acquired Grama Vidiyal Micro Finance to strengthen rural outreach. Opened its first North-East branch in Shillong. Launched IDFC Aadhaar Pay, India's first Aadhaar-linked merchant payment solution. CASA reached ₹2,094 Cr; funded assets stood at ₹66,567 Cr (Mar'17).

2017-18

Featured in LinkedIn Top Companies 2017. Merger discussions with Shriram Group were explored but called off. Launched 100th branch; total 127 branches across 18 states. On 13 Jan 2018, announced merger with Capital First, subject to approvals. CASA reached ₹5,710 Cr; funded assets ₹70,099 Cr (Mar'18).

Capital First was an NBFC created in 2012, focussed on MSME and retail loans through technology driven lending models.

2012-13

Company operated mainly in Wholesale Financing, PE, Asset Management, FX, and Retail Broking. Total AUM was ₹935 Cr, of which Retail AUM was ₹94 Cr (10%).

2012-13

V. Vaidyanathan acquired equity stakes in company, concluded MBO, divested for Forex JV, merging the NBFC subsidiary, wound down non-core businesses, and launching tech-driven retail lending. Retail loan book crossed ₹700 Cr by Mar'11, becoming proof-of-concept for global PE investors.

2014-15

Continued engaging PE investors; further exited non-core subsidiaries; scaled retail financing. Retail book grew to ₹3,660 Cr (44% of AUM), validating the model.

2012-13

Secured ₹810 Cr equity from PE backing, enabling the MBO and creation of Capital First. Conducted open offer, raised ₹100 Cr fresh equity, reconstituted the Board, and launched the new brand.

2014-15

Raised ₹178 Cr equity at ₹153/share. Obtained HFC license from NHB and launched housing finance through a wholly-owned subsidiary.

2015-16

AUM reached ~₹12,000 Cr; customers financed crossed 10 lakh. Raised ₹300 Cr via QIP at ₹390/share from marquee investors.

2014-15

Featured in Business Today – India's Most Valuable Companies, D&B India's Top 500, and included in S&P BSE 500 Index.

2016-17

AUM reached ~₹20,000 Cr; customers financed crossed 4 million. Raised ₹340 Cr from GIC (Singapore) via preferential allotment at ₹712/share. Received several awards including CNBC Asia IBLA and ET Future Ready Companies.

2017-18

AUM touched ~₹27,000 Cr; customers crossed 6 million. Won ET Best BFSI Brand and VC Circle Financial Services Company awards. Announced merger with IDFC Bank in Jan 2018 (subject to approvals).
