The objective of NSFR is to ensure that banks maintain a stable funding profile in relation to the composition of their assets and off-balance sheet activities. A sustainable funding structure is intended to reduce the probability of erosion of a bank's liquidity position due to disruptions in a bank's regular sources of funding that would increase the risk of its failure and potentially lead to broader systemic stress. The NSFR limits overreliance on short-term wholesale funding, encourages better assessment of funding risk across all on- and off-balance sheet items, and promotes funding stability.

The Liquidity Risk Management of the Bank is governed by the Asset Liability Management (ALM) Policy approved by the Board. The Asset Liability Committee (ALCO) is responsible for implementing the liquidity and interest rate risk management strategy of the Bank in line with its risk management objectives set by the Board. The Bank closely monitors its NSFR on a daily basis. The Bank has maintained NSFR well above the regulatory minimum of 100%. This is facilitated with the help of stable funding profile which is driven by retail deposits. The Bank has reduced its concentration on money markets and large-size deposits. This has been achieved by mobilizing the retail franchise, offering a variety of products and branch expansion. The Bank strives to maintain its stable funding profile by increasing its deposits base further.
